

TEFL/TESOL

"Slash Study Time And Learn At The Comfort Of Your Own Desk... Or The Beach, Park Or Garden!"

Introducing our new, improved Online TEFL Course, the most advanced e-learning TEFL course available. Our online course enables you to get immediate, 24/7 online access to top-quality TEFL/TESOL training, and the ability to gain certification in as little as 10 days working full-time. There are significant benefits to taking your TEFL course online:

- Greater convenience and flexibility – learn on your terms, when and how you want
- Draw from more than 30 different tutors' experience, based all over the globe
- Take your learning deeper, drill into as much content as you want, at your own speed
- Real life case studies and examples, supported with expansive resources section
- No waiting around! Save valuable time and money
- Support your online study with optional classroom tuition and practice over just one weekend (highly recommended)
- Work to an established and proven framework developed by e-learning and TEFL/TESOL experts

"Announcing Our New Online Course, The Quickest, Most Convenient Route To TEFL/TESOL Certification Available"

- NEW, state-of-the-art e-learning TEFL/TESOL course gets you certified faster
- SAME user-centred approach and competitive price saves you time and money

The original online TEFL/TESOL course just got one serious, six-figure makeover! Re-built from the ground up over 18 months and crafted by experts across the TEFL/TESOL and e-learning spheres, it's been a long and worthwhile journey!

Here's what you can expect:

- **Flexible learning based around you**
Unlike other online TEFL/TESOL courses our course can adapt to your learning style. You, the student can choose to view all content before doing any assessments, or choose to view particular styles of content – whatever suits you!
- **Learn the principles quickly and then get in to the detail**
How deep do you want to go? You choose how much they want to learn on a particular topic – do the basic content and get a pass or go deep into areas that interest you or you feel weaker! We've also added a huge resources section for the more studious!
- **Taste the real world**
We won't just present you with boring theory (well you might have to endure some of that but only because it's beneficial). Our course will provide you with real life examples and case studies to support the TEFL/TESOL theories – we keep it practical, and real!
- **Developed by TEFL and e-learning experts from across the globe**
We felt it was important to bring two worlds together. Having worked in TEFL/TESOL since 1994 we sought to bring in fresh TEFL/TESOL thinking AND work with e-learning experts, who have helped develop e-learning programs with organisations such as LearnDirect and HSBC.
- **Fast response and module grading**
We don't restrict you to just one tutor, our new course will allow any one of our 30 expert tutors to mark your work, you can receive feedback within minutes!
- **No waiting around for us**
We won't restrict your progress, complete one module and simply progress to the next

whilst you are being graded. You can enjoy 24/7 access and work at a pace that suits you.

- **Built on the world's leading online course framework**
Harnessing skills of education experts and developers to deliver a course that is built on a framework used by Universities and trainers all over the world. Originally designed and developed with the UK's Open University.

We've increased the number of modules from 10 to 13, and increased the number of hours training from 40 to 60 hours to reflect this. Some of these modules are brand new, and some have been moved from specialist certificates into the main part of the course.
